

MONSTER CROWD HEARS LENTZ IN FIRST ADDRESS BEFORE N.M.E.A.

Golden Rule Foundation of Jeffersonian Democracy, As-
serts Ohio Statesman and
Educator to the Teachers.

O'SHEA DELIVERS HIS FOURTH DISSERTATION

Wisconsin Professor Tells of
Psychology of the Crowd in
Interesting and Highly In-
structive Manner.

"Jeffersonian democracy is the lov-
ing of your neighbor as yourself," was
the doctrine laid down last evening to
Mon. J. J. Lentz, to the splendid audi-
ence that again crowded the armory.
Flashlight pictures were taken of that
audience, to be kept as a reminder
of how Albuquerque can entertain a
convention when she makes up her
mind to do it, and as an incentive to
Santa Fe for next year.

Southwestern was the eloquence of
the speaker from Ohio as the speaker
of Jefferson, the radical, the friend of
humanity. In his introduction he ex-
pressed his surprise to find such an
audience, which a convention in New
Mexico, which certainly made it worth
his while to come 2,000 miles to ad-
dress it, although it was in itself
worth while to come to meet such
wise and able friends as Dr. David C. Boyd
and M. L. Lee, the editor of the Journal.
"If there is any state in the
union in the forefront of education and
progress, it is the state of New Mexico,"
he declared.

Defining the difference between a
statesman and a politician he said:
"A statesman is one who lies awake
night thinking and planning to do
something for everybody, while a polit-
ician lies awake nights to think up
ways to do everything for something."
The speaker laid down as Jeffersonian
the principle advocated Saturday by
Robert F. Aspinwall in defending the
city limit law, that the child is a toll
of the Sandhills has as much right to
an education as the child in the rich-
est ward of Albuquerque, etc. con-
cluded.

"Jefferson advocated universal educa-
tion but the rich landowners of this
country said: Why should the child be
taught to educate the poor white trash.
It is enough that we pay for the educa-
tion of our children, and it was many
years before Virginia came to the Jef-
fersonian idea of a state university
and the best kind of education for
everybody. Resistance to tyranny is
obedience to God; it is one of the max-
ims of Jefferson, as well as I have
seen hostility against every form of
tyranny of the mind. It was also
Jefferson who said: 'Why be so care-
ful whether you are elected to office or
more concerned that you do not elect
some one else?'"

Madley and the Quakers.
The speaker spoke feelingly of the
fact that the second school taught by
Hiram Madley, New Mexico's grand
old man, was at Sligo, Ohio, and that
it was also the second school taught
by himself. He paid a glowing trib-
ute to the Quakers, their philanthropy
and their faith, quoting the saying of
the greatest woman of the Quaker
church: "If the religion does not
change then, then had better change
the religion."

O'Shea's Fourth Address.
It was his fourth and last address
before the convention that Dr. O'Shea
delivered last evening on the "Psy-
chology of the Crowd," or "The Power
of Suggestion." He began his lecture
with a mental test, which demon-
strated that all human beings are like
other auditors jump at conclusions.
Dr. O'Shea declared it to be the right
principle, that nature demands that
man should take a chance once in a
while. "There are some politicians
who can tell the truth," said Dr.
O'Shea, and gave the psychological
reason for it. He dealt upon the
fears that dwell in the human mind
and are a survival of primitive times.
He explained the methods of fakirs,
who always operate in the dusk, for
in the dusk the things of fancy are
supreme. Dr. O'Shea believes that the
world will approach its highest ideal
when every individual has learned to
think, not selfishly, but truthfully,
when every individual will look facts
straight in the face, without any rela-
tion to personal selfish interests or
prejudices. He branded as untrue the
often heard statement that the chil-
dren of today are poorer readers,
writers and spellers than those of the
last generation, and expressed his
well pleased because the children
of today read so much more than
those of yesterday. "Give the individ-
ual child a large experience in Eng-
lish words," was his concluding ad-
monition.

White Wants More Funds.
Alvan N. White, superintendent of
public instruction, was the first speak-
er of the evening. President Vaughn
introduced him gracefully and an-
nounced his topic as "Educating the
Public Sentiment." Mr. White at the
start disclaimed all political bias or
personal prejudice, and assured his
audience that he was speaking only
for the good of education in New
Mexico, and that there was nothing
but that which he sincerely wished
for the good of the people of the
state. He spoke of the urgent needs
of the department of education about
which the public ought to be edu-
cated, and which the teachers ought
well upon in speaking to their peo-
ple at home. He referred to the in-

THE WEATHER

WEATHER FORECAST.
Denver, Nov. 22.—New Mexico: Wed-
nesday and Thursday fair, not much
change in temperature.

LOCAL WEATHER REPORT.

annual of President Vaughan as a
"splendid address," and said that as
local New Mexicans "we are proud
of the progress made in educational
things."

"I have gotten along very well with
the legislature," he said. "The New
Mexico legislature have placed upon
the statute books six excellent laws,
which I predict will do splendid
things for education in New Mexico
and which time will prove to be very
wise."

"The fault I find with the legisla-
ture is that it did not understand our
financial needs. The first statute leg-
islate have passed the department of
education \$2,500 less than it had in ter-
ritorial days. I asked the last leg-
islature for \$15,000 out of the \$2,000
surplus in the school building fund,
so that we might gather statistics and
conduct a study of the department of
education. The fund was sacred and yet,
the other day, \$27,500 was transferred
from that same fund to pay a com-
missioner for the printing of a com-
piled laws."

Mr. White told of the state's \$200,-
000 acres of land, from the income of
which the land commissioner may use
20 per cent to pay the expenses of
his office, while the department of
education must go to the legislature
each year to beg for its pitiful share.
The department has had, he said,
only \$400 this year for statistical work,
but next year will have \$1,200 for
the reading of examination pa-
pers, thanks to the efforts of Repre-
sentative Newton and Senator
Hartford.

He compared his department with
others, as follows:

"The department is allowed only
\$15 a month for a stenographer to
answer the letters that come pouring
in continuously from the 2,000 di-
rectors, 2,000 teachers and thousands
of others. In other offices, at the
capital, stenographers are allowed at
least \$100 a month. The department
has one chief clerk at \$1,500 a year,
in other offices the clerk is allowed
at least \$1,800 a year; the superin-
tendent has one assistant and is al-
lowed \$2,500 a year for all of the in-
cidental expenses, postage, printing,
etc. of the office. It is only by

DETECTIVES AND NIGHT-RIDERS IN PITCHED BATTLE

Casualties of Seven Wounded
Result From Pistol Duel by
Officers and Fugitives; Dogs
Used in Long Chase.

(BY MORNING JOURNAL SPECIAL LEADER WIRE)
Cape Girardeau, Mo., Nov. 23.—Five
allied night riders and two private
detectives were wounded in a pistol
duel southwest of Clarksville, Mo.,
yesterday, early today. Seven of the
night riders were captured later after
an all-day chase by bloodhounds and a posse.

Tonight virtually every citizen of
Clarksville and every land owner in the
vicinity are armed in expectation of
another attack by the night riders.
The latter are a secret band of ten-
ants and farm laborers who have been
waging feud-like war for higher wages
and lower food prices.

The struggle between tenants and
landowners on one side and landowners
and merchants on the other has been
in progress here for several months
and has spread throughout New Mas-
sachusetts in southeast Missouri. Six
detectives have been camping secretly
for two weeks in a swamp in which
is part of the farm of T. S.
Hussey, wealthy land owner and
banker, against whom the night riders
have centered their attacks.

Yesterday the hiding place of the
detectives was discovered by the night
riders and shortly after midnight
about thirty men, hidden behind
straps began firing at the detectives' shack. The detectives replied through
improved portholes and counted five
fallen night riders.

Bushire, Persia, Nov. 22 (via Lon-
don, Nov. 23, 5:25 p. m.)—W. T. T.

the interior of Persia, about 115 miles
northeast of Bushire and the other
members of the British colony there
were arrested recently at Shiraz and
taken to Borazjan, about twenty-five
miles inland from Bushire, where they
were detained.

The women of the party, who have
been released and have arrived at
Bushire, declared that gentlemen al-
leged to be acting in collusion with
Germans, deceived the Persian gov-

had been declared and that they were
acting under orders from Tehran.
